PROFESSIONAL SUMMARY

BCA graduate and Front-End & WordPress Developer skilled in **React.js, JavaScript, Dart, and PHP**, with hands-on experience building **responsive websites, chat apps, code editors, to-do apps, and membership-based LMS platforms** using React, WordPress, Elementor, and custom plugins. Seeking a **frontend role** to apply technical skills, contribute to team projects, and grow professionally.

PROFESSIONAL EXPERIENCE

11.2024 - 05.2025 Front End Developer

Innovative marketing services | 2024 - 2025, Delhi, India

Developed and customized WordPress websites using PHP, JavaScript, Elementor, Gutenberg, and ACF. Integrated plugins like WooCommerce, WPForms, and Yoast SEO, while ensuring responsive design, SEO best practices, and high-performance delivery across multiple client projects.

05.2025 - Present Web Developer

Social Emergers, Delhi, India

Currently working on end-to-end WordPress development including custom themes, plugin integration, Elementor-based designs, and e-commerce solutions with WooCommerce. Also manage domain setup, hosting, SEO optimization, and performance improvements to deliver responsive and client-focused websites.

PROJECTS

Corporate Websites (WordPress – Client Projects)

- Developed SEO-optimized, responsive corporate websites with Elementor, custom themes, and plugin integrations.

E-Commerce Store (WooCommerce):

- Built and customized online store with product management, secure checkout, and payment gateway integration.

Corporate Website Conversion to LMS (WordPress – Social Emerger Web Solutions):

- Converted company website into a membership-based LMS using WordPress, Elementor, custom plugins, and AWS. Implemented user registration, course management, access control, and secure payments.

Personal Chatter App (React + Firebase):

- Real-time chat app with authentication, responsive UI, and scalable backend.

Code Editor (React + CodeMirror):

- Browser-based code editor with syntax highlighting and collapsible panels.
